The Zeta **Skylight** provides an option to upgrade your office, classroom or retail building by fitting a complete replacement.

Designed to fit directly into a 600 x 600mm suspended ceiling, the LED trays are easy to install and offer over 50% energy saving.

Ultra bright LEDs thermally bonded to the rear of the panels ensure that long life (>40,000 hours) can be achieved and therefore maintenance costs can be drastically reduced annually.
